Residential Requirements:

Utility and Storage Sheds

No utility or storage shed shall exceed 192 square feet in area, 12 feet in height, or have a wall which exceeds 8 feet in height. All sheds shall be erected on a permanent concrete or a treated wood floor to which they shall be bolted or otherwise attached. Only one storage or utility shed shall be allowed for each single family dwelling or on any one residential zoning lot. All sheds shall be located only to the rear of the principal building on the premises. No shed shall be located closer than 10 feet to any structure located on the lot. No shed shall be erected within 3 feet of any side yard lot line, within 5 feet of any rear yard lot line.

APPROVED BY THE CITY OF HICKORY HILLS

Building Commissioner
